

To Greg and Marty,

December 30, 2009

As we come to the close of our first 12 day extended vacation. We wanted to express our sincere gratitude for the two of you and really your entire team. We absolutely LOVE our cabin and it has exceeded our expectations!!!

From the very beginning, when we first met in the early months of 2009, we appreciated the hands on approach in showing us examples of cabins done by your company. We appreciated the quality and craftsmanship seen in those cabins, coupled with your on-site project supervision and commitment to high quality, affordable pricing, we were sold.

Once funded, we were amazed at how fast things progressed from a start date of mid August and completion in early December. Living out of state, we so appreciated the pictures to see our dream cabin's progress to completion. Most importantly, you held true to our time line for wanting the cabin completed for our holiday retreat.

We so appreciated your responsiveness, in answering the hundreds of little questions along the way and bringing to light tiny details that have made all the difference. Very rarely did I have to leave a message; being able to speak to Greg on the first call placed. This was a welcomed change to the way most people do business.

Again we are so thrilled with the quality and craftsmanship put into our cabin, truly a custom fit, that not only exceeded our expectations, it stayed within our budgeted price.

Thank you for helping to make a life long dream become a reality!
